**INQUEST ON BODY OF  
C. JENNINGS**

**BOWLSBY FACES AND IDENTIFIES  
CORPSE WITHOUT A TREMOR,  
THOUGH EVIDENTLY WITH  
GREAT SELF-CONTROL.**

An inquest was held yesterday morning by Coroner William Pohl on the remains of Cleve Jennings, killed by a bullet from the revolver of J. H. Bowlsby early Friday morning on board the Alliance. The jurors summoned were P. Lawler, Julius Strauss, J. N. Laws, A. L. Steele, E. C. Jeffers and E. A. Coe. The coroner announced that, as most of the principal witnesses were on board the Alliance, he would, after taking the evidence of the doctor and having the body identified by J. H. Bowlsby, adjourn the inquest till such time as the Alliance returned to Astoria. Dr. J. A. Fulton, who attended the dead man from shortly after the time he was shot till his death, was then called. Having been sworn, in reply to the coroner's questions, he stated that he had seen the body; that it was that of Joseph Cleve Jennings; that he had first been called to attend Jennings at 6 o'clock a. m. on the 14th of June. He was called to the steamer Alliance and found the man lying on the floor, suffering from a gunshot wound. He then had the body moved to St. Mary's Hospital. On being asked what treatment was given to the man, the doctor replied that nothing could be done for him, his condition was too precarious, but he was simply put to bed. He died about two o'clock the same day. The next question was the cause of death and to this the doctor replied that the man died of a gunshot wound in the body. The bullet entered the back at about 2 1/2 inches from the spine and close to the tenth or eleventh rib; it passed through the body coming out below the left nipple about 1 1/2 inches to the side of the middle line of the body, ranging slightly upwards and passing out near the ninth or tenth rib. On its course the bullet passed through the spleen, through the diaphragm twice, the stomach and the left lobe of the liver. He had no other wounds.

This concluded the doctor's evidence. He was told by the coroner that with regard to any statement made by the dead man to him he would be questioned in the future. Afterwards the jury viewed the body. Then the prisoner, J. H. Bowlsby, was taken in to see the dead man and he identified him as Cleve Jennings. The prisoner said his name was J. H. Bowlsby; that he was 46 years of age and that he lived at North Bend. He did not know the dead man's age, but he knew he lived at North Bend.

The inquest was then adjourned till such time as could be fixed on the date of the return of the Alliance being definitely ascertained.

The body of Cleve Jennings will be shipped to North Bend, the Chief of Police having received a telegram from the Marshal at North Bend yesterday. The Marshal instructs the Chief to ship the body by the next boat and he will be responsible for the charges.

**RIVER GIVES UP DEAD  
BODY OF MAN**

**A BODY PRESUMABLY THAT OF A  
HUNTER FOUND ON TIDE FLATS  
OF KNAPPION ISLAND.**

Yesterday Coroner Pohl was notified that the dead body of a man was lying on the tide flats at Knappa Island. Coroner Pohl immediately dispatched his deputy, M. Pohl, to take charge of the body and bring it to Astoria. The deputy took a launch up the river, but was unable in the shallow water to approach near enough to recover the man. He was obliged to obtain a light skiff and with this was enabled to haul the corpse into deeper water from which it could be lifted into the boat. Upon examination the body proved to be that of a big man; he had a sandy mustache but he had been dead and subject to the action of the water so long that his features were wholly unrecognizable, and nothing can be learned from them. Apart from this the man was dressed in overalls and a vest. He had no coat on but a number of cartridges in his pockets seem to point to the fact that he was a hunter, and in all probability he had upset from some small duck boat and had been drowned. Besides the shells he had in his pockets a purse containing \$1.00 and a pen knife. He wore a very large sized leather lace shoe, at least a No. 10. The spot where the body was found is covered with water at high tide.

There has been a logger missing from the neighborhood recently, but it is not thought probable that the body found yesterday is that of the missing man.

IT MAKES A DIFFERENCE.

It makes all the difference in the world to the convivial man where, and what, he drinks. Most men desire beauty and cleanliness, and handsome appointments in the saloon they patronize regularly, as well as the essential pre-requisite of genuine wines and liquors that are served to them, and these things are so particularly and

properly conspicuous at Otto Sund's elegant resort, the Commercial, at No. 509 on the street of that name that they account thoroughly for the fixed and splendid custom he enjoys. There is nothing allowed to pass his counter but the best and choicest in every department of indulgence, and the service behind it all, is the most pleasing and satisfying in the city.
